To Whom It May Concern:

My name is Zoran Rakonjac and I am currently a chief resident in podiatric foot and ankle surgery at VA Puget Sound Health Care System in Seattle, WA. I will be completing my residency training in June 2020. I am seeking employment opportunities in the Seattle metropolitan area starting summer 2020.

My training has exposed me to all aspects of podiatry and has provided me with well-rounded skill sets. I am proficient in inpatient and outpatient treatment of complex diabetic and vascular lower extremity wounds using advanced wound care modalities and limb salvage procedures. I also developed skills in conservative and surgical treatment of foot and ankle injuries, correction of forefoot and rearfoot deformities, and ankle arthroscopy. I am adept at handling high volume clinics, maintaining excellent patient care and being efficient at performing podiatric and wound care in-office procedures.

Throughout my residency training I have taken initiative to further my education by attending multiple podiatric conferences throughout the country and have given presentations at both local and national meetings. Furthermore, I strive to remain current on my surgical techniques by attending surgical skills courses such as the AAFAO Internal Fixation and the ABFAS Ankle Arthroscopy courses.

I hope to join a well-rounded practice where I will be able to utilize my skills and experience, and continue to grow on both personal and professional level. You may reach me by telephone or email to further discuss how my training and background could fit the needs of your practice. Thank you.

Sincerely,

Zoran Rakonjac, DPM
